

CLOVER

GIN

Lucky N°4

Alcohol Content
750 ml – 44% ALC./VOL.

*Three lovely sisters like leaves on a clover,
similar but not the same,
have created a unique gin;
exquisite like the morning dew,
delicate like the clover flower.*

LUCKY N°4

Lucky N°4 is the newest member of our Clover gin family. A golden taste based on a fusion of herbs and citrus. Green tea, cardamom and bergamot are wonderfully balanced with clementine. A perfect way to celebrate every occasion.

OUR STORY

A childhood spent in the Kalmthoutse Heide surrounded by endless heathland and greenery had a great influence on the three Icaroth sisters.

After leaving the nest in 2015 they decided to embark on an ambitious journey together.

A unique botanical gin became the result of an eight-month long search for the perfect taste.

THE PERFECT TASTE

The distilling process was an adventure.

Coriander, cardamom and juniper are often used as a strong base while making a gin.

It is the long search for the additional ingredients that made the process interesting.

The unique combination of botanicals such as green tea, cardamom, bergamot and clementine present a golden taste which makes Lucky N° 4 the perfect choice for every occasion.

THE SECRET INGREDIENT

Three sisters, like leaves on a clover composed this lovely gin by playing with flavors.
The presence of clover gave the gin its uniqueness.

Featured Drinks

FOR THE PERFECT SERVE

5 cl Lucky N°4 Clover gin
15 cl premium tonic water
a slice of grapefruit
a sprig of rosemary
ice cubes
add a few pink peppercorns to spice it up
Enjoy!
