

CLOVER GIN

Alcohol Content
750 ml – 40% ALC./VOL.

*Three lovely sisters like leaves on a clover,
similar but not the same,
have created a unique gin;
exquisite like the morning dew,
delicate like the clover flower.*

THE CLASSIC ONE

Our very first gin holds a special place in our bar. A great depth of flavor with a floral twist. Fresh notes of cardamom, infusions of coriander seeds and black pepper. Balanced with clover, lavender and juniper berry.

OUR STORY

A childhood spent in the Kalmthoutse Heide surrounded by endless heathland and greenery had a great influence on the three Ickroth sisters.

After leaving the nest in 2015 they decided to embark on an ambitious journey together.

A unique botanical gin became the result of an eight month long search for the perfect taste.

THE PERFECT TASTE

The distilling process was an adventure.

Coriander, cardamom and juniper are often used as a strong base while making a gin.

It is the long search for the additional ingredients that made the process interesting.

The surprising combination of pear and lavender ended up adding a fresh perfume and a soft taste.

THE SECRET INGREDIENT

Three sisters, like leaves on a clover composed this lovely gin by playing with flavors. The presence of clover gave the gin its uniqueness.

Featured Drinks

SPICY CLOVER

5 cl Clover gin
2 cl sugar syrup
15 cl ginger ale

garnish: coriander leaves, slice of ginger

BLOSSOM

5 cl Clover gin
3 cl lemon juice
2 cl sugar syrup
